Interactive webinar course Cytology of canine and feline skin epithelial neoplasia

Dr. Francesco Albanese, DVM

*Centro Dermatologico Veterinario Toscano – AR
Laboratorio analisi veterinarie MyLaV – Rho (MI)*

The interactive aspect will be guaranteed by the use of **poll everywhere**, a system of instantaneous answers via web, an application very simple to use through the mobile:

<https://www.polleverywhere.com>

SCIENTIFIC PROGRAM

*Timetable is referred to **Central European Time (CET)***

- 09.30 Welcome - **Dr Fedeli**, Head of Malpighi Pathology Academy
- 09.45 Clinical aspects of Epithelial tumors and sampling techniques for cytological examination - **Dr Albanese**
- 10.15 Cytology principles of epithelial neoplasms: the cytoarchitectures - **Dr Albanese**
- 11.15 Hill's time – **Dr. Zocchi**
- 11.30 *Pause*
- 11.45 Cytological features of basal cells non keratinizing epithelial tumors (with Interactive cases)- **Dr Albanese**
- 13.00 *Pause for Lunch time*
- 14.30 Cytological features of keratinizing epithelial tumors (with Interactive cases) - **Dr Albanese**
- 15.30 *Pause*
- 15.45 Cytological features of "specialized" glands skin neoplasia (with Interactive cases)- **Dr Albanese**
- 16.30 End of work

*Graduated in 1993 in Veterinary Medicine, he has lectured in skin cytology in many courses and workshops in Italy and abroad. He is author of international scientific papers and of the book **Canine and Feline Skin Cytology: A Comprehensive and Illustrated Guide to the Interpretation of Skin Lesions Via Cytological Examination**. Full member of ESVD (European Society of Veterinary Dermatology) and SIDEV (Italian Society of Veterinary Dermatology) and works both as a freelance in dermatology and as a consultant for the Private Veterinary Laboratory "La Vallonea" (Rho-Mi) for which reads skin cytology and dermatopathology specimens.*

Learning Objectives

The course is designed to help veterinarians interested in cytology:

- ✓ Understand the clinical aspects of epithelial skin tumors (breed predisposition, morphology, body site localization, colour etc.) and the right techniques of cells collection
- ✓ Recognize the morphology of epithelial cells and how their arrangement can orient the cytological diagnosis
- ✓ Approach the diagnosis by recognizing the different types of keratin and different aspects of glands secretory activity
- ✓ Give a practical cut to the cytology of epithelial tumors through the study of interactive clinical cases and a self-assessment test

Friday June, 18, 2020

Registration Form

General Information

Registration

- ✓ Registrants should fill in the online registration form at: <https://forms.gle/B6VWGpEDpcaPzQgQ6>
- ✓ Alternatively, you are kindly requested to fill in the paper registration form and send it to malpighivet@gmail.com
- ✓ Send a copy of the wire transfer to malpighivet@gmail.com and please, ensure that your name is stated on your payment in order to easily identify it.
- ✓ Registration deadline is June 12.
- ✓ The participant number will be **limited to 25 people** and therefore early application is advised.

Registration fee

Registration fee is 70 € which includes all scientific sessions, course educational materials, and Malpighi Pathology Academy membership for 2020. Registration fee for participants who already paid for 2020 Academy membership and attended the May course is 30 €.

Payment information

Payment should be made with a wire transfer payable to:
Account Holder: MALPIGHI PATHOLOGY ACADEMY
Account Address: Via dei Benci 2 – 50122 Firenze (Italy)
Account Number: 40818406
Bank: CRÉDIT AGRICOLE CARISPEZIA
Bank Address: Via San Cipriano 33/35 – 19124 La Spezia
Bank Code: ABI 06230 – CAB 10727
IBAN: IT32U0623010727000040818406
BIC: CRPPIT2P158

Cancellation

Notification of cancellation must be made by e-mail to malpighivet@gmail.com on or before **June 16, 2020**.
No refunds on registration fees will be made.
Substitutions can be made if a colleague can take your place.
